Birds' beauty & Welfare

FOOD AND COSMETICS FOR BIRDS
MADE IN ITALY

Our research for their well-being,
for high-level performance

Aesthetic

Our bivalent recipe
for an always perfect plumage, shiny
and with bright colors..

Top quality food

Our commitment
of responsibility over time
to feed with quality
birds on breeding facilities

Immuno plus

A selection of ingredients to
create a barrier resistant to
aggression and a healthy and
robust immune system.

Metabolic system

Our formulas are studied
for a fully efficient intestinal
bacterial flora, specifically
for their well-being.

For the organism's full well-being

Selected raw materials and constant tests in the breeding facility are crucial to ensure a high quality result in the production of food for birds.

In fact, for their health it is essential to integrate carefully chosen ingredients into their diet, which otherwise they would not be able to consume in captivity.

From this specific need comes a range of products aimed at making up for any deficiencies in their dietary requirements.

The daily passion and time spent on the breeding facility have made it possible to create products that are truly close to the needs of breeders, to help them take care of their animals every day.

Each product is packaged
with cutting-edge techniques
capable of preserving
its quality and integrity.
The well-being of birds depends on
proper nutrition.
This is why H24 Bird's Beauty
& Welfare offers
specific products for each stage
of life of the different bird species.

Seed Mixes

Only seeds selected
with the utmost care,
combined in a specific way
to best satisfy the food needs
of each species of bird:
this is how these seed blends
are born, with compositions
specifically designed
for the well-being
of your animals.

Goldfinch Mix

Composition: Canary seed, Dactylis glomerata, White lettuce, Chicory, White perilla, Extra micro black sunflower, Small hemp, Red fescue, Sesame, Fennel, Panicaceae, Ryegrass, Japanese millet, Brown flax, Niger, Wild thistle, Milk thistle.

Who is it for: Cardellini major, Fanelli, Negriti della Bolivia e Carduelis tristis.

Available in packs of 2,5 kg and 10 kg.

■ 2,5 kg - COD: FOB002 | 10 kg - COD: FOB001

Mixed Siskin

Composition: Canary seed, Dactylis glomerata, White lettuce, Chicory, Black lettuce, Small hemp, Niger, Red fescue, White perilla, Clover, Sesame, Fennel, Camelina sativa.

For whom it is indicated: Siskins, Acanthis Flammea, Pine Siskins, Serins and Carduelis Citrinella.

Available in packs of 2,5 kg and 10 kg.

■ 2,5 kg - COD: FOB011 | 10 kg - COD: FOB010

Greenfinch Bullfinch mix

Composition: Canary seed, Buckwheat, Small hemp, Husked oats, Safflower, Micro black sunflower, White millet, Panic, Dactylis glomerata, White perilla, Red fescue, Fennel, Milk thistle, Ryegrass, Wheat, White lettuce, Chicory, Blond flax, Dog Rose Berries, Rowan Berries, Turnip Seeds, Juniper Berries.

For whom it is indicated: Greenfinches, Bullfinches, Coccythraustes coccythraustes, Finches

Available in packs of 2,5 kg and 10 kg.

■ 2,5 kg - COD: FOB021 | 10kg - COD: FOB020

Mixed Spinus

Composition: Dactylis glomerata, white lettuce, chicory, white perilla, red fescue, small hemp, fennel, camelina sativa, clover, spinach.

For whom it is indicated: Carduelis cucullata, Carduelis psaltria, Carduelis xantogaster, Carduelis yarrellii, Carduelis notata, Carduelis magellanica, South American siskins.

Available in packs of 2,5 kg and 10 kg.

■ 2,5 kg - COD: FOB031 | 10 kg - COD: FOB030

Super premium Canaries

Composition: SCanary seed, Dactylis glomerata, Chicory, White lettuce, Black lettuce, Red fescue, Niger, Small hemp, White perilla, Fennel, Blond flax, Decorticated oats, Camelina sativa.

For whom it is indicated: Canaries, Canaries of English breeds and heavy sizes.

Available in packs of 4 kg and 12 kg.

■ 4 kg - COD: FOB041 | 12 kg - COD: FOB040

Gould Mix

Composition: Canary seed, white millet, panicum, yellow millet, Japanese millet, Dactylis glomerata, Niger.

Whom it's for: Gouldian diamonds and exotic birds.

Available in packs of 4 kg and 12 kg.

■ 4 kg - COD: FOB051 | 12 kg - COD: FOB050

Color Parakeet Mix

Composition: Canary seed, White millet, Panic, hulled oats, Yellow millet, Blond flax.

Whom it's for: Color wavy.

Available in packs of 4 kg and 12 kg.

■ 4kg - COD: FOB071 | 12 kg - COD: FOB070

English Parakeets superpremium

Composition: Canary seed, White millet, Panic, Japanese millet, Husked oats, Small hemp, Dactylis glomerata, White lettuce, Chicory, Niger, White perilla, Fennel.

Whom it's for: English Parakeets.

Available in packs of 4 kg and 12 kg.

■ 4kg - COD: FOB061 | 12 kg - COD: FOB060

Agapornis Mix

Composition: Canary seed, Japanese millet, hulled oats, white millet, red millet, panicum, small hemp, buckwheat, safflower, ryegrass, fennel, niger, blond flax, milk thistle.

For whom it is indicated: Agapornis, Bolborhynchus, Brotogeris and Forpus.

Available in packs of 4 kg and 12 kg.

■ 4 kg - COD: FOB081 | 12 kg - COD: FOB080

Mixed Neophema

Composition: Canary seedlings, hulled oats, white millet, fennel, chicory, celery, white lettuce, leek, carrot, parsley, rocket, cabbage, radish, basil, spinach, Japanese millet, safflower, small hemp, panicum, red fescue, buckwheat, micro black sunflower, blond flax, alfalfa seed, white perilla, milk thistle.

For whom it is indicated: Neophema, Calopsite, Cyanoramphus, Neopsephotus, Northiella e Psephotus.

Available in packs of 4 kg and 12 kg.

■ 4 kg - COD: FOB091 | 12 kg - COD: FOB090

South American and Australian Parakeets Mix

Composition: Canary seed, Safflower, Husked oats, Red millet, Buckwheat, White millet, Panic, small hemp, White sunflower, Micro black sunflower, Fennel, Small striped sunflower, Blond flax, Juniper berries, Rowan berries, Milk thistle

For whom it is indicated: Alisterus, Aprosmictus, Aratinga, Myiopsitta, Platycercus, Polytelis and Pyrrhura.

Available in packs of 4 kg and 12 kg.

■ 4 kg - COD: FOB101 | 12 kg - COD: FOB100

Mixed seeds for soaking

Composition: Niger, split peas, hulled oats, green azuki, wheat, red lentils, hemp, safflower, buckwheat, micro black sunflower, radish, green lentils, white millet, panicum, fennel.

For whom it is indicated: for all types of birds.

Available in packs of 2,5 kg and 10 kg.

■ 2,5 kg - COD: FOB111 | 10 kg - COD: FOB110

Sprouting Seeds Mix

Composition: Hemp Seeds, Niger, Micro Black Sunflower, Green Azuki, White Lettuce, Chicory.

For whom it is indicated: for all types of birds.
Available in packs of 2,5 kg and 10 kg.

■ 2,5 kg - COD: FOB121 | 10 kg - COD: FOB120

6life

Specially designed for the well-being of birds, this blend is able to integrate essential fatty acids, Omega-3 and Omega-6 into their diet. It is also rich in macro and micro nutrients and in particular in minerals, including Manganese, Calcium, Phosphorus, Copper, Iron, Selenium and Magnesium.

It also provides an important contribution of vegetable proteins, vitamins and trace elements for a perfect balance of the intestinal microbiota.

Composition: Fonio, Chia, Alfalfa seed, Bella di notte, Camelina, Blue poppy.

For whom it is indicated for all types of birds.
Available in packs of 700 g and 2 kg.

■ 700 g - COD: FOB132 | 2 kg - COD: FOB130

Complementary feed and water sanitizers: the perfect combination

From an in-depth study of the needs of the various bird species and from a careful selection of raw materials, our complementary feeds are born, designed to integrate all the components they need into their diet. **Select Complex** and **Grit** ensure the full well-being of your animals' organism. They contain no added sugar and are made with selected ingredients. Each of these feeds contains Clinoptilolite (Zeolite), in granular or non-granular form, which has a detoxifying action on the intestine and favors the elimination of harmful substances present in the body. Thanks to their properties, they can also be combined with excellent results with our food, for a truly complete diet capable of ensuring the full well-being of captive birds. These specific formulations, designed to accompany birds in all stages of their life, are the result of daily tests on the breeding facility and combined with our water sanitizers, **BlueGen** and **Colloidal Silver**, allow you to keep your animals healthy.

Select Complex

This very complete blend, containing 12 vitamins plus Biotin, 10 amino acids plus Zeolite, 6 trace elements and 3 types of pre and probiotics, is indicated for the daily supplementation of bird feed on farms. The active presence of the vitamin complex allows, in fact, to fill any deficiencies and to resolve nervous or growth disorders. Clinoptilolite and essential and non-essential amino acids also contribute to the general well-being of the animal, thanks to which the essential energy for cellular metabolism is guaranteed. Amino acids are, in fact, fundamental components of proteins, essential for normal growth and proper function and development of the body

Composition: Extruded wholemeal flax seeds, Soybean flour-based feed, Barley flour, Calcium carbonate, Sodium bicarbonate.

ADDITIVES FOR KG

Vitamin, pro-vitamine e sost. ad effetto analogo:

Vitamins, pro-vitamins and subst. with similar effect: 3a672a Vitamin A/Retinyl Acetate 65,000 IU, 3a671 Vitamin D3 10,750 IU, 3a700 Vitamin E 970 mg, 3a821 Thiamine Mononitrate or Vitamin B1 507 mg, 3a825i Riboflavin or Vitamin B2 420 mg, 3a831 Vitamin B6 808 mg, Vitamin B12/Cyanocobalamin 3 mg, 3a315 Niacinamide (Nicotinamide) 108 mg, 3a316 Folic Acid 2 mg, 3a710 Vitamin K3-menadione sodium bisulfite 22 mg, 3a880 Biotin 50 mg, 3a300 Vitamin C 10,000 mg, 3a841 Calcium D -pantothenate, 1,500 mg, 3a910 L-carnitine 10 mg.

Trace element compounds: Zinc (3b605 Sulphate of zinc monohydrate) 13 mg, Iron (3b103 Iron sulphate [II] monohydrate) 30 mg, Manganese (3b503 Manganous sulphate, monohydrate) 12 mg, Copper (3b405 Copper[II] sulphate pentahydrate) 3 mg, Iodine (3b201 Potassium iodide) 0.8 mg, Selenium (3b801 sodium) 0.40 mg.

Amino acids, their salts and analogues: 3c301 technically pure dl-Methionine 9.100 mg, 3c322 Hydrochloride of l-Lysine tech. pure 3.711mg, 3c410 L-threonine 50 mg, 3c362 Arginine 163 mg, 3c382 l-Leucine 245 mg, 3c381 l- Isoleucine 97 mg, 3c371 l-Valine 195 mg, 3c401 l-Tyrosine 255 mg, Aspartic acid 325 mg, Histidine 66 mg,

Glutamine 10 mg, Carnitine 10 mg.

Binders: 11g568 Clinoptilolite of Sedimentary Origin 98000 mg.

Analytical constituents: Crude protein 21.1%, Crude fat 11.9%, Crude fiber 6.5%, Crude ash 17.7%, Sodium 0.2%, Ash ins. in 9.9% HCl.

Botanically defined natural products: Peeled Pumpkin Seeds, Grapefruit Seeds, Dog Rose, Rosemary extract, Milk thistle powder (Silybum marianum or Silymarina), Cinnamon (Cinnamon), Schinopsis balansae (CAS1401-55-04 Quebracho).

Directions for use: administer in the maximum percentage of 8-10% of the complete feed. It can be combined with germinated seeds, cooked seeds, carrots, broccoli and various vegetables or added directly to animal feed. Mix it thoroughly before serving. Recommended all year round, especially in the changing seasons.

Whom it's for: all birds.

Available in packs of 500 g.

■ 500 g - COD: IGB07

Grit

Supplementing the diet of captive birds with selected minerals is crucial in their daily diet, not only for the necessary contribution to the body but also for the mechanical action that the crushed minerals perform in the gizzard of the subjects during the digestive phase. Grit is a mixture of selected minerals, with the addition of Calcium and Zeolite, and it is indispensable for captive birds because it provides important elements that they are constantly looking for when they live in the wild. This composition can be made available to birds every day

Composition: Ground oyster shells, Calcium carbonate, Vegetable pectins, Calcium pidolate, Natural flavourings.

ADDITIVES FOR KG

Leganti: Binders: 1g568 Clinoptilolite of Sedimentary Origin 98,000 mg, E 566 Natrolite-Phonolite 247,500 mg.

Analytical constituents: Calcium 28%, Phosphorus 0.0%, Sodium 0.0%, Ash Ins. in HCL 32.4%, Na 0.07%.

Recommendations for use: it can be administered, in the maximum percentage of 10%, in complete feed or directly in the food; in any case it will still be very effective and palatable (carefully mix the preferred ingredients to the composition and carefully mix the product before serving)

Expiry: 24 months.

Whom it's for: all birds
Available in packs of 2 kg.

■ 2 kg - COD: IGB210

BlueGen

BlueGen is a powerful ally to keep birds always healthy as it ensures that the water for drinking and bathing remains clean and hygienic. It is a product specifically designed to delay the growth of yeasts, fungi and bacteria in water. Wherever the water comes from, be it from city network or from a bottle, it is destined for a change even if it is renewed. As soon as the birds immerse their beak in it, they immediately contaminate it. Moreover, the birds then bathe in it, deposit food or defecate in it. BlueGen prevents germs from multiplying, thus keeping the water pure and crystalline. Moreover, it is hardly destroyed enters the intestines of birds; therefore it does not harm bacteria benefits and does not accumulate in the body.

Ingredients: Chlorhexidine gluconate.

Tips for use: add 2 drops of BlueGen for every 100 ml of water or a coffee spoon each liter of water, or a cooking spoon for every 5 liters of water. Mix the solution well and provide it to the birds.

For whom it is indicated: for all birds.

Available in bottles of 125 ml and 500 ml.

■ 125 ml - COD: IGB109
500 ml - COD: IGB110

Colloidal Silver

Colloidal Silver is a natural remedy that can be administered throughout the year for preventive purposes to strengthen the immune system. In recent years we have used and tested Colloidal Silver in our farms on different species of birds and, thanks to the well-being results obtained, we have created the H24 Silver Water with the conditions of quality and purity that are necessary to guarantee the maximum efficacy and safety for the health of our birds.

Tips for use: colloidal particles gradually spread throughout the body providing a therapeutic action that is prolonged over time.

External use: for the treatment that affects the external parts, spray several times a day directly on the affected skin parts, there are no overdose problems.

As a preventive sanitizing treatment: 3/5 sprays in 100 ml of water to drink every day continuously or alternately. There are no contraindications to the use of PURE Colloidal Silver in farms. The product is absolutely not harmful or toxic for birds.

Available in 100 ml and 500 ml bottles.

500 ml - COD: IGB106

Our wellness formula

Chisiya Mama soft food is the result of very careful research on selected flours to ensure your birds an excellent natural source of nutrition, essential for keeping their intestinal microbiota healthy. It is a specific formulation for the daily feeding of granivorous birds in captivity, the result of constant studies and tests to ensure them the best supply of nutrients. Made with no added sugars, only with high quality raw materials, it is currently one of the healthiest and most complete proposals on the market for feeding birds. It also does not contain 00 flour, which taken constantly and in large quantities can damage the intestinal microbiota of birds, but only noble flours. This rich and complete formulation makes it a perfect solution for taking care of your pets in the best possible way. Combined with Mix Energy Green and Spice Mixture, if desired also with soaked vegetables or seeds, it constitutes a complete and balanced formula, the wellness formula we have studied for your animals.

Chisiya Mama

The mother of all seeds since ancient times, Quinoa, is an integral part of this unique food of its kind. The result of research that lasted over 5 years, and which continues to this day, and a meticulous selection of ingredients, it is an excellent product to keep your pet healthy, providing it with all the nutrition it needs. Its recipe has been optimized after years of studies and tests on the facility, not only on the special flours that embellish it, but also on the oilseed flours. This is to ensure that the birds can simultaneously have a perfect supplement to the intestinal microbiota and satiety in the chicks. It also promotes the correct process during moulting and plumage regeneration. By using Chisiya Mama you can get all these benefits for your pets.

Composition: Soybean Flour, Chickpea Flour, Amaranth Flour, Quinoa Flour 11%, Eggs, Corn Flour, Blond Flax Flour, Sunflower Oil, Vegetable Margarine, Sunflower Seed Flour, Brewer's Yeast.

Additives: flavoring organoleptic additives, technological additives, preservatives, antioxidants.

Analytical components: moisture 8.6%, Crude protein 20.2%, Crude fat 19.5%, Crude ash 4.05%, Crude fiber 9.0%, Calcium 3510 mg / kg, Sodium 353 mg / kg, Phosphorus 4900 mg / kg.

Tips for use: this product can be administered every day and in particular during the breeding season in the dry solution in which it is purchased or it can be integrated with germinated seeds, cooked seeds, carrots, broccoli and various vegetables. It can be mixed with Mix Energy Green, Spice Mixture and Select Complex. Close the package after opening and store it in a cool and dry place. Recommended all year round.

For whom it is suitable: for all birds.

Available in 1 kg and 5 kg packs.

■ 1 kg - COD: IGB111 | 5 kg - COD: IGB112

Mix Energy Green

Dried vegetables are a perfect energy boost for all birds, having similar properties and characteristics to fresh vegetables, and are available at any time, especially in the winter months when fresh vegetables are more difficult to find.

The strong concentration of nutritional substances, such as proteins, starches, vegetable fats, mineral salts and vitamins, in little weight and excellent shelf life over time, if the product is stored in optimal conditions, are in fact useful and valuable properties, which can only be obtained thanks to drying. The volume reduction of dried vegetables is one of its most evident advantages thanks to the immediate energy and caloric well-being it brings. Very small doses will therefore be necessary to cover the daily requirement since it is a more concentrated food.

Composition: Diced carrot, Sliced garlic, Diced celery, Sliced onion, Fennel seeds, Broccoli, Nettle, Tomato, Peas, Rosemary, Dandelion, Thyme, Coriander, Fucus, Spinach, Alfalfa, Absinthe, Gymnema, Mallow flowers and leaves, Ulmaria.

Tips for use: the H24 blend of vegetables and aromatic plants is exclusive and specific, designed by our team of experts with products harvested once ripe and then dehydrated. Contains no artificial flavors, colors or preservatives. Ideal to be mixed with our pastoncino, but also with soaked seeds or germinated seeds. Add one to two tablespoons of water to a tablespoon of vegetables H24, leave to act so that the product completely absorbs the water and add to the daily ration of food. Mix Energy Green can also be made available as it is dry or with the addition of Spice Mixture and our food. Packaged in a modified atmosphere. Expiry: 24 months.

For whom it is suitable: for all birds.

Available in packs of 1 kg.

■ 1 kg - COD: IGB131

Spice Mixture

H24 tested a balanced mix of spices specially designed and created for the ornithological world and for well-being some birds. Spices are really precious allies in everyday life, for the protection of health. Some spices, more than others, are rich in mineral salts and vitamins with beneficial properties able to strengthen the immune system of birds. Following a pastoncino enriched with spices digestion will be much faster.

Composition: Garlic powder, Turmeric powder, Cinnamon powder, Cloves powder, Coriander powder, Juniper powder, Oregano, Nettle powder, Sweet paprika, Black pepper powder, Chilli powder, Rosemary, Dandelion, Thyme powder, Ginger powder.

Tips for use: the H24 spice blend is exclusive and specific. Contains no artificial flavors, colors or preservatives. Ideal to be mixed with our pastoncino, but also with soaked seeds or germinated seeds. Add two tablespoons of product to approximately one kg of egg food or a light sprinkle on germinated or soaked seeds.

For whom it is suitable: for all birds.
Available in packs of 250g.

■ 250 g - COD: IGB108

Beauty treatments for the plumage of birds

Extremely delicate cleaning

H24 cleansing is an extremely delicate emulsion originating from a completely natural surfactant extracted from wheat, 100% vegetable. Gently cleans the dirt and dust that settles on the plumage of captive birds.

Excellent ingredients

The H24 compositions use the best ingredients for quality and richness of active ingredients. They are completely natural and derived from plants and fruit.

Purity and concentration

The plant extracts have been specially studied, come from plants of extraordinary quality and are present in the products in high quantities.

Research and results

Technical assessments have been made on countless textures and colors of the feathers to offer concrete answers to breeders and ornithology enthusiasts.

Security program

The H24 formulations are innovative and completely harmless, they act with the utmost respect for the integumentary system of birds, with maximum benefit and total reliability.

Health and beauty

The H24 products are exclusive, created to easily obtain the best aesthetic performance on feathers. Using H24 you will discover how the structure of the feathers changes and is strengthened already after the first treatment.

Preparing for exhibitions will become a magical moment in which you can observe extraordinary changes and exhibit your samples with colors and textures never seen before.

Aqua Life

MOISTURIZING BATH

Aqua Life is a multipurpose moisturizing bath that cleans and makes the plumage shiny after just a few applications. Ideal for all bird species for maintaining and preparing for exhibitions, this product is recommended for all textures and colors.

Contains: Aloe, Keratin and Willow extract.

Tips for use: according to the condition of the plumage to be treated can be nebulized pure or diluted with 1 part of demineralized water. It is also recommended to use it in special trays with these proportions: 2/3 tablespoons in 300 ml of water. It is absolutely not harmful to birds, it can be ingested or sprayed in the eyes without health consequences.

Available in bottles of 600 ml and 5000 ml.

■ 600 ml - COD: IGB010 | 5000 ml - COD: IGB013

Shine Water

MOISTURIZING FLUID

Shine Water is a moisturizing fluid that cleans and makes feathers shiny after just a few applications. Ideal for preparing plumage for exhibitions. Its formula is specifically designed for strong, intense, dark colors and very keratin textures

Contains: Cottonseed Oil, Keratin and Argan Oil.

Tips for use: carefully nebulize the product duct at a distance of 20/30 centimeters from the subjects to be treated. Thoroughly sprinkle all the birds' plumage and let it dry naturally. Repeat the treatment 3-4 times a week for perfect hydration of the feathers.

Available in bottles of 600 ml.

■ 600 ml - COD: IGB011

Hydra Secrets

MOISTURIZING FLUID

Hydra Secrets is a moisturizing fluid that cleans, polishes and is multifunctional for the feathers in need conditioning. Ideal for preparing plumage for exhibitions. Specially designed for soft plumage with delicate textures and colors, it is ideal for obtaining volume and for curled canaries.

Contains: Plantain, Mallow, Horsetail, Altea, Fenugreek, Oligosaccharides, Natural polysaccharides, Elastin, Hydrolyzed collagen, Aloe vera, Keratin, Ginko Biloba, Ginseng.

Tips for use: carefully spray the product at a distance of 20/30 centimeters from the subjects to be treated. Thoroughly sprinkle all the birds' plumage and let it dry naturally. Repeat the treatment 3-4 times a week for perfect hydration of the feathers.

Available in bottles of 600 ml and 5000 ml.

■ 600 ml - COD: IGB003 | 5000 ml - COD: IGB004

Clean Up

DELICATE SHAMPOO

Clean Up is a gentle cleanser that moisturizes, sanitizes the skin and cleans the plumage of birds. Ideal for all feathers, Clean Up is the only shampoo that does not require rinsing.

Contains: Rosa Canina, Hamamelis, Lime and Honey.

Tips for use: can be used in trays suitable for the bath (in the proportion of 2/3 spoons in 300 ml of water). It is absolutely not harmful to birds, can be ingested or splashed in the eyes without health consequences.

Available in bottles of 600 ml.

■ 600 ml - COD: IGB015

Keratin Up

MOISTURIZING FLUID

Keratin Up is a moisturizing fluid that contains Keratin and Collagen, important elements for the formation and the beauty of feathers. This treatment structures the plumage gives volume and gives a silky effect. Regular use of Keratin Up creates a natural protective barrier that repels dirt and dust. Suitable for all plumages and ideal for preparing subjects for exhibitions.

Contains: Keratin and Collagen.

Tips for use: the product is ready for final use and dries quickly. Spray the product at a distance of 20/30 centimeters from the subjects to be treated, taking care to spray all of them well the plumage areas. The solution should not wet the feathers, but only moisten them with a very light spray. To prepare for exhibitions, use the composition a few weeks before.

Available in bottles of 250 ml and 600 ml. (reload)

■ 250 ml - COD: IGB021 | 600 ml - COD: IGB022

White Silk

SPECIAL FORMULA FOR WHITE PLUMAGE

White Silk is the result of a study and specific research dedicated to delicate white plumage. This color highlights all imperfections, therefore it requires special attention when taking care of it. This treatment gives a silky effect, ensuring intense shine to the textures with light colors and white plumage. Regular use of White Silk creates a natural protective barrier that repels dirt and dust. Ideal for preparing subjects for exhibitions.

Contains: Clove essential oil, Pomegranate oil, Macadamia oil, Babassu oil, Keratin and Allantoin.

Tips for use: spray carefully the product on the entire plumage of the subjects to be treated. The solution should not wet the feathers, but only moisten them with a very light spray. To prepare for exhibitions, use the composition a few weeks before.

Available in bottles of 250 ml.

■ 250 ml - COD: IGB023

Paw Care

DERMO PROTECTIVE LOTION

Paw Care is a skin protective lotion that softens, cleans and moisturizes scabs, scaliness and skin thickening of various nature and origin. Its formulation has been specifically designed for all cage and aviary birds.

Contains: Alcohol Denat., Camphor, Pvp, Peg-7 Glyceryl Cocoate, Caprylic / Capric Triglyceride, Myristyl Alcohol, Polysorbate 20, Peg-40 Hydrogenated Castor Oil, Thymus Vulgaris Flower / Leaf Oil, Avena Sativa Oil.

Tips for use: apply one or more drops of solution with the dropper on the legs, taking care that the surface to be treated is completely covered. A protective film will form on the treated area which will last for several hours. The application must be repeated for a few days, which vary depending on the case, and in any case until the desired result is obtained.

Available in bottles of 30 ml.

■ 30 ml - COD: IGB107

Special Care

SOFTENING OIL WITH OLIVE OIL

It is an ointment specially created to moisturize and soften the paws of birds. It is a highly professional conditioner that contains allantoin and essential oils such as thyme, rosemary and eucalyptus which release a natural fragrance to the product. This composition of active ingredients of natural origin sanitizes the skin, makes it supple and without flaking. Regular use of this product creates a natural barrier against parasites. It does not contain chemical elements that are harmful to the health of birds.

Contains: Chamomile Oil, Hypericum Oil, Rosemary Oil, Thyme Oil and Allantoin.

Directions for use: distribute a little of the product on the paws and massage gently with care to allow it to be absorbed.

Available in packs of 60 ml.

■ 60 ml - COD: IGB020

Breeding Cleaner

SANITIZING DETERGENT

It is a sanitizing detergent, ideal for cleaning and perfuming the entire facility. Recommended for cleaning equipment, feeders, drinking troughs or farm surfaces.

Contains: a blend of essential oils, thyme extract, water-soluble active sulfur.

Tips for use: spray the affected areas, leave to act for a few moments and then wash with the aid of a cloth or sponge.

Available in bottles of 600 ml and 5000 ml.

■ 600 ml - COD: IGB032 | 5000 ml - COD: IGB030
